**Announcing StreamVision II
StreamVision Locals and StreamVision Premium Content!**

Greetings AireBeam customers! Along with your fast FibAire Broadband Internet service, AireBeam now offers StreamVision II TV and unlimited US and Canada Digital Phone Service.

Using a Roku as the “set top box” with our StreamVision APP, you can watch live or record your favorite Phoenix Broadcast Local TV and your choice of premium content packages normally available only on cable or satellite service. Using your Roku, you also have access to Netflix, Amazon Prime, Hulu movies, Sling TV and more than 3,000 Roku channels. Bring your own Roku Express +, HD, Premier or Ultra or buy one at Walmart or Amazon. See Streamvision II in action at our office in Arizona City!

Choosing the Best Roku for StreamVision TV

Like computers, there are many Roku models and they vary dramatically in their power and ability to provide fast response with the StreamVision TV application! So, we have tested the currently available production models and below we present our recommendations.
